

Quiz 2

BRANCHES OF PHILOSOPHY

Q1

PHILOSOPHY OF MIND:

Studies: The relationship between mental phenomena & physical brain processes, including concepts like beliefs, desires, and emotions.

Key Questions:

What distinguishes deliberate actions from mere bodily movements, whether mental states explain behaviour, and what makes action free.

PHILOSOPHY OF RELIGION:

Relation: Metaphysics explores the concept & attributes of God (all-knowing, wholly good), while both metaphysics & epistemology evaluate justifications for belief in God.

Key concerns: faith vs reason, religious, religious language, morality, & the problem of evil.

3. PHILOSOPHY OF SCIENCE:

Two Divisions: Natural Sciences & Social Sciences.

Recent Categorization: Divided into specific subjects like the philosophy of physics, biology, psychology & economics.

4. POLITICAL PHILOSOPHY:

Key concerns: limits & justification of state authority, legal equality, economic freedom, & forms of government (such as capitalism, democracy, socialism, & communism).

SOCIAL PHILOSOPHY:

Difference: Focuses specifically on moral problems with wide-scale social dimensions rather than solely state governance.

Topics Covered: Compulsory education, preferential treatment for minorities, fair taxation & free expression limits in the arts

Philosophy Of Law:

Question Addressed: The definition & types of laws, the connection between law & morality, & ethical principles for criminal punishment.

MEDICAL ETHICS.

Ethical Issues: Doctor patient relationship, standards, moral questions, surrounding abortion & euthanasia, & ethical guidelines for human experimentation & genetic engineering.

Business Ethics.

Core focus: Resolving conflicts between making a profit & fulfilling moral obligations.

Topics Covered: Corporate social responsibility, institutional rights & corporate conduct in society.

AESTHETICS (PHILOSOPHY OF ART)

• PRIMARY CONCERNS: The nature of art, methods to interpret & evaluate artistic works, & how art connects to natural beauty, morality, religion & science.

PHILOSOPHY OF LANGUAGE:

- Topic Examined: Meaning, the link between words & reality, language acquisition, & literal vs figurative speech.
- Importance. Language is fundamental to human ~~thought~~ thought & activity, helping catalyze all other academic fields & everyday communications.
